Exhibit at Testing & Control and  
address a large audience of  
professionals of eight co-located  
industrial shows

Seven international trade shows are  
held alongside Testing & Control

NDT Russia, PCVExpo, Power  
Electronics, ExpoCoating Moscow,  
Mashex Moscow, Heat&Power, FastTec

Testing & Control has proven to be a commercially effective event where exhibitors enjoy the opportunity of meeting new customers representing various industries from across Russia and the CIS. Exhibiting at Testing & Control is a good way to

- Increase sales of test and measuring equipment
- Expand the sales geography
- Find new partners and dealers

 **12 675** specialists

 **57** regions of Russia

### VISITORS PROFILE

The visitors of the event represent industrial, construction, environmental and research laboratories, certification centers, design bureaus, quality control, standardization and metrology departments of companies operating in various industries.

### PRODUCT GROUPS

Measuring equipment

Laboratory control

Test equipment

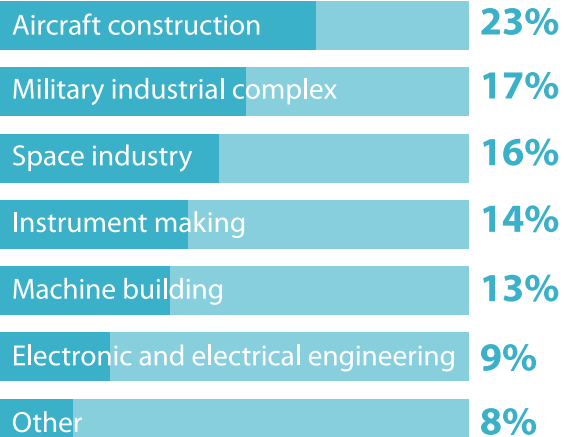

Production control and Machine vision

Equipment for non-destructive testing and technical diagnostics

### VISITORS' COMPANY SECTORS

Testing & Control is a must-attend event for professional visitors to source comprehensive industry information:

Numerous conferences and seminars are organised at the event providing networking opportunities for both exhibitors and visitors, and for sourcing latest updates on testing and control methods and technologies.

The Largest Test and Measuring  
Equipment Trade Show in Russia

**23–25 October 2018**
